Future Leaders
Global Immersion Program 2026
UAE Edition - Dubai & Abu Dhabi
powered by SuprMentr & GlobalXcelerate

Program designed by Mr Supreeth Y S
(Founder of SuprMentr | Alumni of RV College of Engineering)

Program Overview

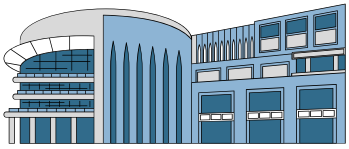
The Future Leaders Global Immersion Program – UAE Edition is a carefully curated international exposure experience designed for ambitious students currently in their 1st and 2nd year (Undergraduate students) who aspire to gain global exposure, make powerful connections, exposure to cultural integration and build a strong profile that could potentially lead to externships, global internships and international jobs. This 8-day immersive journey across Dubai and Abu Dhabi blends innovation, technology, entrepreneurship, and cultural exploration, offering participants a rare opportunity to learn, compete, and grow in one of the world's most dynamic regions.

Participants will engage with international faculty, startup founders, CXOs, and industry leaders, while working on real-world challenges through a Global Innovation Ideathon. The program also ensures unforgettable cultural and leisure experiences across the UAE's most iconic destinations.

Why UAE?

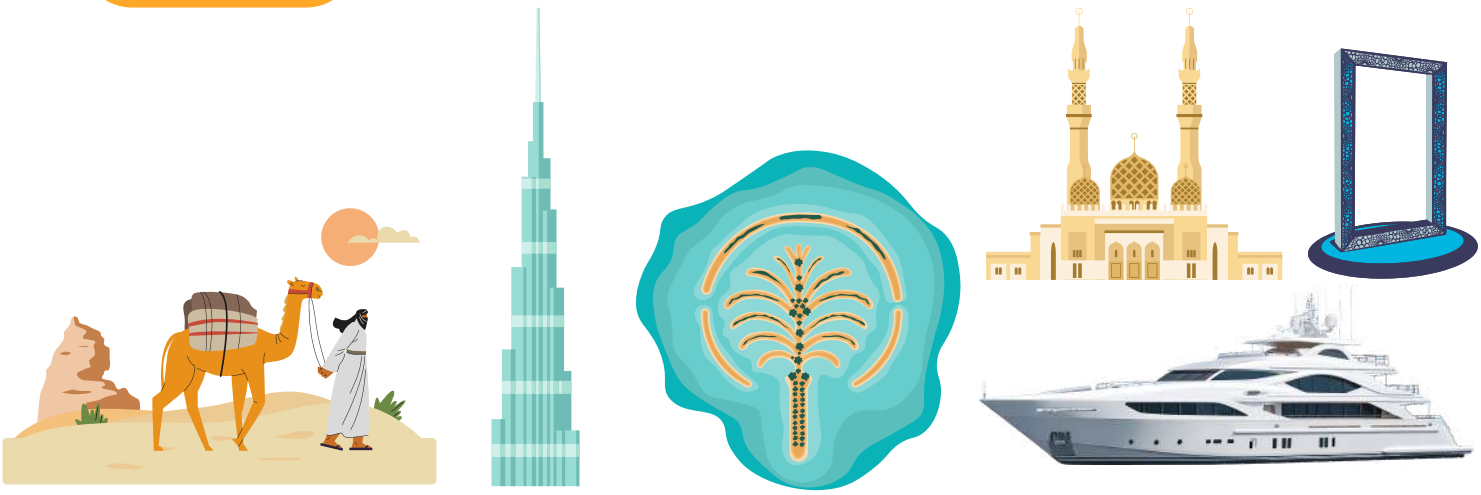
One of the world's fastest-growing innovation and startup ecosystems

A global hub for technology, finance, AI, sustainability, and smart cities



Home to world-class universities, incubators (like DTEC), and multinational companies

A unique blend of futuristic infrastructure and rich cultural heritage



Plus, the fun factor: iconic skylines, desert adventures, global food scenes, nightlife vibes, and Instagram-worthy experiences at every turn — learning meets luxury and excitement

Academic & Innovation Highlights

Learn at Zayed University

- Academic sessions at Zayed University – Dubai & Abu Dhabi
- Learn from top international professors
- Exposure to global teaching methodologies
- Cultural exchange programs with international students

Industry & Startup Exposure

- Visits to leading industries, tech hubs, and innovation centers
- Interactions with startup founders, entrepreneurs, and CXOs
- Insights into global business models, scaling startups, and innovation
